

## Calendar

### Friday, March 4

THERE WILL BE NO DIRECTOR'S  
COFFEE BREAK TODAY

THERE WILL BE NO JOINT  
EXPERIMENTAL THEORETICAL  
PHYSICS SEMINAR THIS WEEK

**2:15 p.m.** NuMI/MINOS Dedication  
Ceremony - Ramsey Auditorium

**3:30 p.m.** Lab-Wide Party - Atrium

**8:00 p.m.** Fermilab Internation Film  
Society - Auditorium

Tickets: Adults \$4

Title: Det Sjunde Insglet (The Seventh  
Seal)

### Saturday, March 5

**8:00 p.m.** Fermilab Arts Series -  
Auditorium

Tickets: \$18/\$9

Title: Dervish

### Monday, March 7

**2:30 p.m.** Particle Astrophysics Seminar -  
Curia II

Speaker: M. Zaldarriaga, Harvard  
University

Title: 21 cm Fluctuations: A New Window  
for Cosmology

**3:30 p.m.** DIRECTOR'S COFFEE  
BREAK - 2nd Flr X-Over

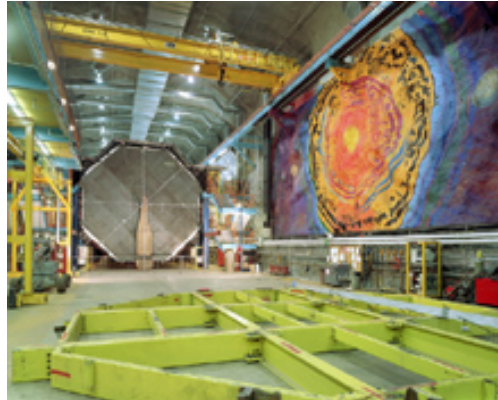

**4:00 p.m.** All Experimenters' Meeting -  
Curia II  
Special Topic: Computer Security

## Weather

## YOU DON'T NEED A TICKET!

All Are Invited to NuMI/MINOS

Dedication Today at 2:30 p.m.

The MINOS far detector is located in a cavern  
half a mile underground in the Soudan  
Underground Laboratory, Minnesota. (Click  
on image for larger version.)

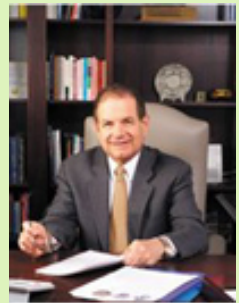

All lab employees, users and contractors  
are invited to today's NuMI/MINOS  
dedication ceremonies at 2:30 p.m. in  
Ramsey Auditorium — you don't need a  
ticket! Different-colored tickets will be  
issued to lab and government officials,  
collaborators, contractors on the project  
and members of the press, but only  
because sections are reserved for them  
to be seated together.

Otherwise, come one-come all! The lab  
urges car-pooling for those coming from  
other areas of the site. Extra parking will  
be available the Lederman Science  
Education Center. The Horseshoe will be  
reserved for parking by participants in the  
ceremony. Give yourself time to be  
seated in the auditorium by 2:15 p.m.,  
when a slide show will begin, depicting  
the history of the project. The dedication  
program will start promptly at 2:30 p.m.

Speaker of the House Dennis Hastert and

## Have Lunch with the Office of Science Director Today

Dr. Raymond Orbach  
invites Fermilab and  
DOE employees to  
stop by to talk with  
him during lunch in  
the cafeteria on  
Friday. Dr. Orbach  
will help to dedicate

Dr. Raymond Orbach

the NuMI/MINOS project on Friday  
afternoon.

## Lab-Wide Party at 3:30 p.m.

An ice sculpture from the 2003 lab-wide party  
After the dedication, join the fun at the lab-  
wide party in the Atrium from 3:30 p.m. to  
6: 30 p.m., hosted by Universities  
Research Association, Inc. Buona  
Catering will provide the food, and party  
organizers have ordered more food to  
avoid running out. Music will be provided  
by Roy Rubinstein and the Chicago Hot  
Six, along with DJ Paul Gentry.

Be sure to bring your invitations to enter  
the raffle drawings. Prizes include Arts  
Series tickets, Fermilab logo wear and gift  
items, and gift certificates to Chez Léon,  
Benigan's, Chili's, Applebee's and  
Borders Books. There will be extra  
invitations on hand for any users or  
employees who did not receive one.

Partly Cloudy **41°/31°**

#### Wilson Hall Cafe

**The cafeteria will close at 1:00 p.m. today. Friday, March 4**

Old Fashioned Ham & Bean Soup

Black & Blue Cheeseburger \$4.75

Chicken Wellington \$4.25

Stuffed Manicotti

Roasted Veggie & Provolon Panini \$4.75

Assorted Pizza Slices

Vegetarian Stir Fry \$4.75

The Wilson Hall Cafe now accepts Visa, Master Card, Discover and American Express at Cash Register #1.

[Wilson Hall Cafe Menu](#)

[Chez Leon](#) will reopen starting

Wednesday, March 2. Call x4512 to make your reservation.

#### Info

Director of the Office of Science Raymond Orbach will dedicate the NuMI beam and the MINOS experiment. Congressman James Oberstar of Minnesota, representing the district where the Soudan Underground Laboratory is located, will also be among the speakers.

Overflow seating will be available only after the auditorium is completely full. And remember-you don't need a ticket! Just be sure to arrive early, and car-pool with other employees if you're driving.

- Mike Perricone

### Computer Security Awareness Day Clarified: It's Voluntary

Feynman Computing Center

An announcement in Wednesday's Fermilab Today indicated that attendance at some of Computer Security Awareness Day's activities is required. That is not the case. Computer Security Awareness Day is an opportunity for everyone to learn things about computer security. Participation in any activity is voluntary. We have planned the activities to be informative, useful, and hopefully fun. Please try to attend.

Brown bag seminars will cover many topics of general interest, including "Dangers of Spyware and Phishing," which explains some of the latest tricks being used to get your personal information. "Basics of Grid Computing"

There will be several raffle drawings during the party, but you must be present to win a prize.

A final reminder: The cafeteria will close at 1 p.m. today.

- Mike Perricone

#### In the News

### From *CERN Courier*, March 2005

#### CMS cavern ready for its detector

On 1 February 2005, the cavern for the CMS detector at CERN was inaugurated in a ceremony attended by many guests, including the Spanish and Italian ambassadors to the United Nations and representatives of the construction companies.

The hand-over of this cavern, a gigantic underground structure 100 m underground near the village of Cessy in France, marks the end of the large-scale civil-engineering work for the Large Hadron Collider (LHC) at CERN. The second of the new caverns for the LHC experiments, the CMS cavern is the result of several years of work by a consortium of Italian, Spanish, British, Austrian and Swiss civil-engineering companies. Problems arising from the local geology made it a spectacular feat of engineering. [read more](#)

#### Announcements

Fermilab Today is online at:

<http://www.fnal.gov/today/>

[Fermilab Today classifieds](#)

[Subscribe/Unsubscribe to Fermilab Today](#)

will present an overview targeted at people who have never used the GRID. "What Happens During a Computer Security Incident" will go behind the scenes during a security incident and what the lab's response team does. If the lab network seems mysterious, "You and the Lab Network" will provide a good introduction.

Several of the brown bags are computer security courses that appear in your training requirements summary in the TRAIN database. If you choose to attend one of those brown bags your training profile will be updated to reflect the fact that you have completed the course. If you don't like tests, this is a good opportunity to get credit for taking the course without having to take the online test.

There will also be continuous short video presentations displayed in the atrium on various computer security topics, as well as an "Ask the Expert" kiosk where staff will answer any questions you have. The brown bags will be held in WH1W and Curia II.

### **Cafeteria Closing Early Today**

The Wilson Hall Cafe will close at 1:00 p.m. on Friday in preparation for the lab-wide party, which will be from 3:30 p.m. to 6:30 p.m. in the Atrium.

### **March Issue of CERN Courier**

The March issue of the [CERN Courier](#) is now available online. Read an excerpt of "CMS cavern ready for its detector" in today's "In the News" section.
